

EDGE

FOGEX

FOGEX is a portable electric ULV (ultra-low volume) fogger specially designed for use with insecticides, disinfectants and deodorants. The turbine nozzles guarantee ultra-fine vaporisation.

	FOGEX
CODE	2070
CAPACITY	4 lt
ADJUSTABLE FLOW RATE (LT/H)	4.2-13.2-19.8
ADJUSTABLE PARTICLE SIZE (MICRON)	14-20-25
RANGE	8m
POWER	1000W
VOLTAGE	220V
POWER CORD	5m
WEIGHT	3.5 Kg

SETTING POSITION	DOSING VALVE SETTING	FLOW RATE AND DROPLET SIZE		
		FLOW RATE		AVERAGE DROPLETS SIZE
		ML/MIN	L/H	
1 - 3	LOW	70	4.2	14 MICRONS
4 - 7	MEDIUM	225	13.5	20 MICRONS
8 - 10	MAX	330	19.8	25 MICRONS

NOTE: All the flow information indicated in the chart above are calculated on the use of water. Higher viscosity liquids will flow at lower rates than shown and will produce a larger droplet size. Always adjust the flow before starting spraying.
