

## GRIMEBOWSER SILENT

When you have the need for powerful pressure cleaning, independent of electrical and water supply, the answer is the EDGE Grimebowser. No more problems with trailing electrical cables or hose pipes, this unique purpose designed and built trailer mount unit with field operations in mind, combines ease of use with proven EDGE reliability.

### Optional

Galvanised hose reel at the front to take up to 50m or 100m HP hose

### Standard equipment

Gun / Lance / Nozzle  
15m HP hose on retractable hose reel inside the machine

- Independent operating from power or mains water supply
- Durability with power coated covers and galvanised trailer frame
- Powered by **Lombardini/Kohler engine**
- Convenient centralised controls, electric start and hour meter
- **Twin cylinder / Water cooled / 17HP diesel engine / KDW702**
- Self-winding start and 12V electric start (battery excluded)
- **35ltr diesel tank**
- Cylindrical shaft / 30Amp alternator
- Triplex pump with ceramic plungers connecting rod system, brass head pump /**WS151 iP or WS202 iP**
- Pressure regulator with built-in detergent suction
- Dry air filter / Fuel, water and detergent filters
- Low pressure chemical
- Pressure gauge and thermostat
- Hour meter / All panels insulated (frost protection)
- Safety valve and Steam valve
- **Gearbox run at 1450Rpm** / automatic accelerator/decelerator
- 12V control panel / 12V auxiliary socket
- Warning light indicating power and fuel
- 12V high efficiency vertical stainless steel AISI 430 boiler, diesel fired, with refractory cement base
- Low noise level / **78dB**

### 1200 litre twin axle plastic highway water bowser

- Baffled plastic tank approx. 8mm thick
- Mounted on a fully galvanised type approved chassis fitted with leaf spring suspension
- Full highway specification - parking brakes, mudguards, lighting board with 7 pin plug
- Heavy duty serrated jockey wheel at the front
- Fitted with an eye or a ball to suit your towing vehicle

### Environmentally Friendly

The EDGE Grimebowser is a highly suitable model for local authorities whose cleaning tasks include; maintenance of road and motor way signs, building and amenities, parks and recreation centres, statues and monuments and the infamous graffiti and chewing gum problem. Additionally bill-board posters can be stripped off in seconds. In the agricultural market the EDGE Grimebowser can offer complete cleaning power with portability to the pig, poultry and dairy farmer. In conjunction with chemical or steam, the Grimebowser provides the ideal solution for cleaning and sanitising requirements.
